

GALAXY

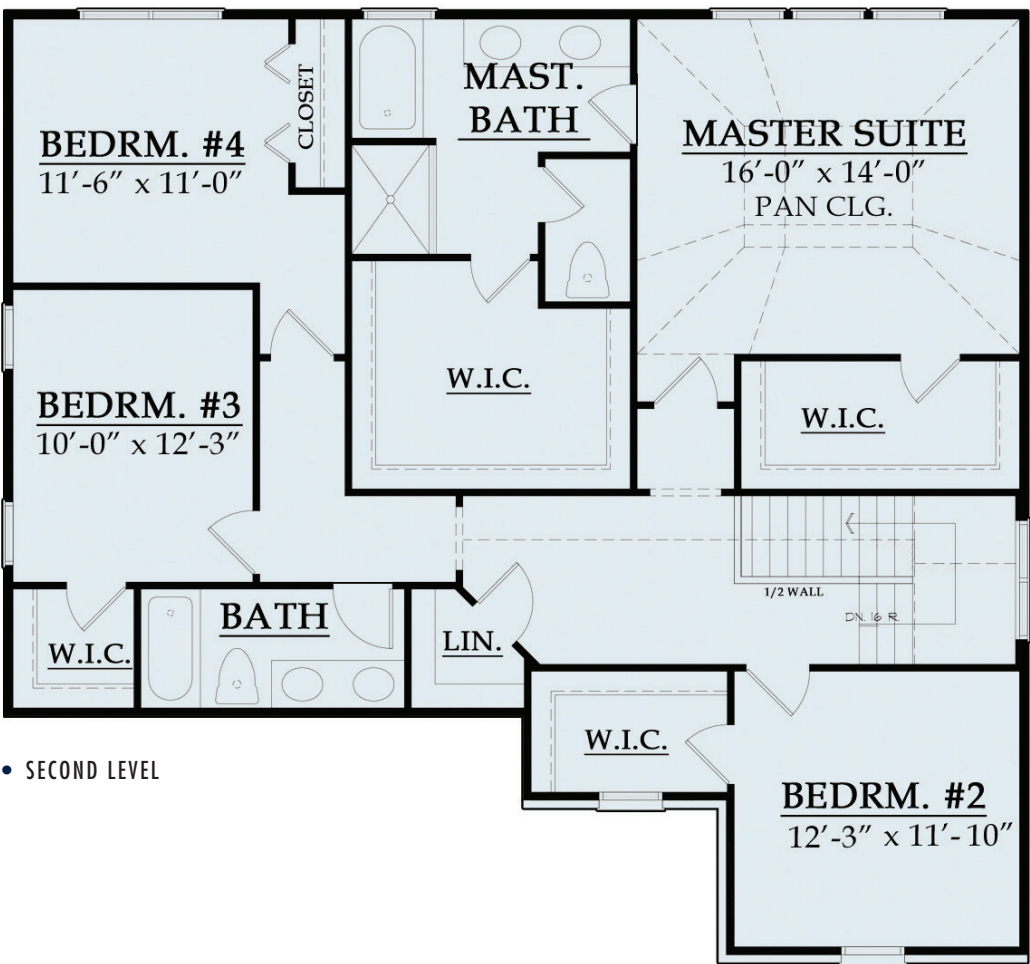

First Level	1,406 sf
Second Level	1,371 sf
Total	2,777 sf

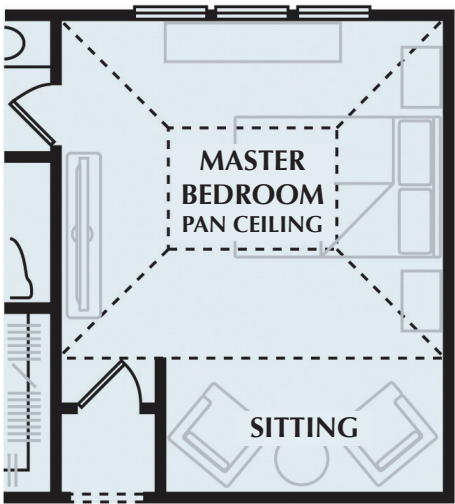

The versatile Galaxy offers a colonial layout with several customizable options — add a beverage cooler and wine rack in the expanded harvest room, grab a book and relax in the owner’s sitting area or light a few candles to unwind in the soaking tub. A mudroom, full closet, optional bench with lockers and a command center give family members the privacy and space to store all their daily belongings. Four large bedrooms, two full baths, plus a powder room provide plenty of space to live in harmony.
