The Charlotte is the perfect single-story layout, both cozy and yet comfortable for entertaining. The spacious kitchen hosts a large island with plenty of seating, generous countertops and a dining area which opens to the family room. A secluded library with optional bay window offers a serene retreat from the hustle and bustle of the home's main living areas. The three-car attached garage, a standard feature, easily accommodates multiple vehicles, outdoor toys or a man cave. Very spacious bedrooms add an exclamation point to the design! The owner's suite includes a beautifully detailed tray ceiling, spacious walk-in closet and luxe spa bath with optional soaking tub.
