The first level offers an open plan design for more family interaction and entertaining with the main focus on the family room with the warmth of the fireplace and large window. The L-shaped kitchen wraps around a center island with a snack bar and has a generous walk-in pantry to store all the necessary staples for preparing family meals. Need a quick place to gather your thoughts? The command center off the dining room will get it done. Need a more private place to do some work or read a good book? Try the study off the large foyer. The mudroom off the three-car garage is the perfect drop zone and has a direct connection to the laundry room and kitchen.
