First Level	1,834 sf
Second Level	765 sf
Total	2,599 sf

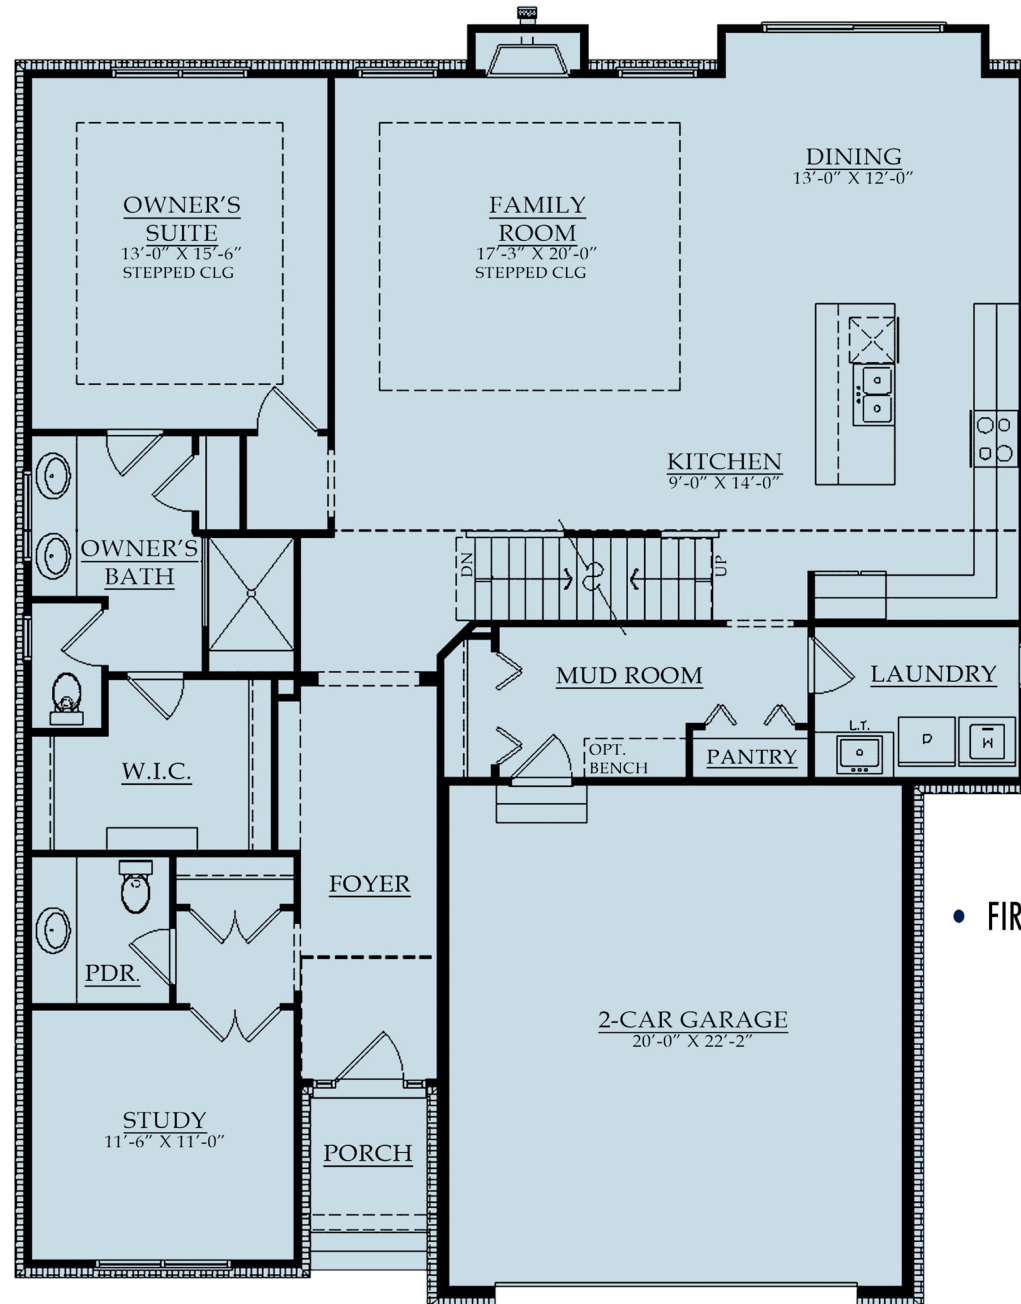

The split level Langley plan punches above its weight. The first level could easily stand alone as a generously proportioned, open layout home. The L-shaped kitchen with its extended island provides all of the storage and countertop space any gourmet chef could need, and the adjacent dining and family rooms keep the family together. Meanwhile, the long mud hall and laundry keep the family clean and organized. When it's time to retreat, the isolation of owner's suite enhances opportunities for "me" time and the study is perfect for work or play. Additional bedrooms can be found upstairs connected with a large open loft and shared bath.
